For Immediate Release:

Crederian Fund Services LLC Completes Conversion of Former Reserve Funds

Media, PA -- Crederian Fund Services announced today that it has completed the conversion of records relating to two former Reserve Funds: the Reserve Primary Fund and the Reserve Yield Plus Fund. The Reserve Primary Fund has long been regarded as one of the nation's oldest money market mutual funds.

Crederian was appointed by the funds' independent trustees as the liquidating service agent for both funds effective November 24, 2010. Since that time, Crederian has been actively engaged in converting shareholder records onto SunGard's Asset Arena Transfer Agency platform. As of this time, Crederian has completed the data migration, has issued 1099 forms, and has distributed account statements with adjusted balances for the funds. In addition, Crederian established a new toll-free telephone number and a new web site for the funds, [www.primary-yieldplus-inliquidation.com](http://www.primary-yieldplus-inliquidation.com).

Both funds presented a unique set of challenges to Crederian. The economic turmoil in September 2008 resulted in losses to both funds based on their holdings in Lehman Brothers. As a result, the Reserve Primary Fund "broke the buck" and led to unprecedented federal government support of the money market mutual fund industry. In addition, both funds changed their tax classification in 2010 adding an additional layer of complexity.

"At Crederian, we had to wade through the history of these funds since September 2008, including their investment and tax history," said Vince Ciavardini, President and Chief Executive Officer of Crederian. "In addition, we had to understand all legacy processing issues that Reserve had put in place over the past three decades, and then craft a more streamlined environment suitable for the fund liquidation process," Ciavardini continued.

With the recent issuance of 1099s and account statements, Crederian has been responding to a heavy volume of shareholder calls with numerous questions concerning the future of these funds. "The funds are very happy that these milestones have been completed, with the able assistance of Crederian," said Ron Artinian, lead independent trustee of the funds. "Crederian has designed and implemented customized solutions to meet the fund's requirements, and we appreciate their professionalism and responsiveness" he added.

The Primary Fund-In Liquidation continues to be overseen by a Federal District Court in New York City. With the conversion behind it, Crederian is prepared to perform the required servicing for both the Primary Fund-In Liquidation and the Yield Plus Fund-In Liquidation. "Crederian stands ready to act in accordance with any directive from the Federal Court or the funds' board of trustees," Ciavardini said.
